Motion to Subpoena Medical X-RaysFILED
HARRISBURG

Obviously, this case comes down to credibility. Although Rockview knew the extent of my condition they went lie and down play it, claiming I was not injured in the way I claimed. Continual pain led SCI-P to re-X-ray my in Nov '00. There results were not shocking to me. But to someone told I have had a hairline fracture at best the sure were! Therefore, I am asking that my medical X-rays taken at both SCI-R (in Feb '99) and SCI-P (Nov nearly two years - but not quite) be subpoenaed and held by the courts for final determination of credibility.

This plaintiff believes this motion fully states its reasons and should ~~be~~ (PJD) be allowed to fall under

Rule 7.5(a); therefore, no brief will follow.
